

NURSERY RHYME OF A MADMAN / 90min /16:9 / English

A dark comedy - thriller about a poet trapped in an asylum who tries to escape two crazy doctors in competition over two schools of thought.

One of the doctors believes in a classic, hands-on method while the other promotes a revolutionary metaphysical approach to treatment. The poet yearns for the freedom to live and create, but his hands are tied. As he meets a young nurse, reality turns taking us on a twisted and poetic journey. <http://www.nurseryrhymeofamadman.com/>

Director's Statement

The movie is an anti-establishment satire with elements of magic realism, meant not only to satisfy an educated audience, but to appeal to anyone with a desire for a new story. In addition to inspiration, parts of the film are based on a subversive short play "Wariat i Zkonnica" (1923) by Polish playwright Stanislaw Witkiewicz. The characters stretch beyond individuals, representing concepts rather than personal agendas. It's a contemporary film, but the story will take us into a dreamlike undefined place and time.
