

NURSERY RHYME OF A MADMAN /98 min /16:9 / English /2017

Producer / Director: Igor Stephen Rados, Rados Film Corp. Canada

A dark comedy - thriller about an artist trapped in an asylum who tries to escape two crazy doctors in competition over two schools of thought.

An established poet is trapped in an asylum by two crazy doctors competing with each other over diametrically opposed schools of thought. One believes in a "classic" method while the other promotes a "revolutionary" metaphysical approach to treatment.

The poet yearns for freedom to live and create but his hands are tied. As he meets a young nurse, reality turns taking us on a twisted and poetic journey.

Director's Statement

The movie is an anti-establishment satire with elements of magic realism, meant not only to satisfy an educated audience, but to appeal to anyone with a desire for a new story. In addition to inspiration, parts of the film are based on a subversive short play "Wariat i Zkonnica" (1923) by Polish playwright Stanislaw Witkiewicz. The characters stretch beyond individuals, representing concepts rather than personal agendas. It's a contemporary film, but the story will take us into a dreamlike undefined place and time.
